

CONFIRMATION OF SUCCESSFUL COURSE COMPLETION

To Whom It May Concern,

This is to certify that Ms. Nina Panknin has successfully completed the professional training program:

***“Artificial Intelligence in a Business Context – Module 3:
AI Agent Development and Business Process Automation with n8n”***
conducted by HERZBLUT Training & Coaching (MS Business Training & Coaching GmbH).

The program was held from April 7, 2026 to May 21, 2026, comprising 140 instructional units (45 minutes each), including project work, and 75 hours of asynchronous learning (60 minutes each). Throughout the program, Ms. Panknin demonstrated strong analytical, conceptual, and practical competencies in the field of Artificial Intelligence, including:

- Development and implementation of AI agents and autonomous workflows using n8n
- Workflow automation, including I/O, JSON, API integrations, and practical workflow creation
- Interfaces and API connections, including API nodes, documentation, API limits, pagination, and security
- Data protection and security, including cloud vs. self-hosting and GDPR-compliant workflow implementation
- Error handling, monitoring, alerts, versioning, testing, and production-oriented workflows
- Deployment, hosting, scaling, version control, and the use of n8n in day-to-day business operations
- Planning, testing, debugging, peer review, and presentation of an n8n AI agent final project

Her performance was assessed through weekly evaluations and a final project presentation.

The final project demonstrated her ability to independently design, structure, and implement innovative AI-based automation solutions at a professional level.

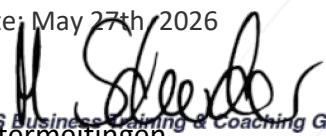

Final Result:

88 / 90 points – Very Good (with distinction)

This result places her among the top-performing participants of the program.

We hereby confirm that Ms. Panknin has successfully fulfilled all requirements of the program.
