

CONFIRMATION OF SUCCESSFUL COURSE COMPLETION

To Whom It May Concern,

This is to certify that Ms. Nina Panknin has successfully completed the professional training program:

“Artificial Intelligence in a Business Context – Module 1: AI Analyst”
conducted by HERZBLUT Training & Coaching (MS Business Training & Coaching GmbH).

The program was held from March 9, 2026 to April 2, 2026, comprising 160 instructional units (45 minutes each), including a comprehensive practical final project.

Throughout the program, Ms. Panknin demonstrated strong analytical, conceptual, and practical competencies in the field of Artificial Intelligence, including:

- Foundations of generative AI, large language models (LLMs), and GPT architectures
- Prompt design and engineering, including structured prompting techniques
- AI tools for text, image, video, and audio generation
- Natural language processing, voice mode, and meeting transcription
- Business process automation and knowledge database development
- Machine learning fundamentals, custom GPT creation, and Microsoft Copilot integration
- Legal framework for AI applications including the EU AI Act (Article 4)

Her performance was assessed through weekly evaluations and a final project presentation. The final project demonstrated her ability to independently design, structure, and implement innovative AI-based solutions at a professional level.

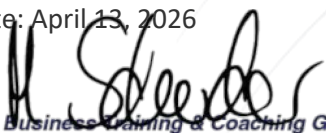

Final Result:

348 / 360 points – Very Good (with distinction)

This result places her among the top-performing participants of the program.

We hereby confirm that Ms. Panknin has successfully fulfilled all requirements of the program.

Date: April 13, 2026
